DETAILED ACTION

Claim Rejections - 35 USC § 101

35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

1. Claims 13-19 and 21 are rejected under 35 U.S.C. § 101 because the claimed invention is directed to non-statutory subject matter. Claims 13-19 and 21 are drawn to a computer program/software application *per se*. Data structures not claimed as embodied in computer-readable medium are descriptive material *per se* and are not statutory because they are not capable of causing functional change in the computer. See, e.g., *In re Warmerdam*, 33 F. 3d at 1361, 31 USPQ 2nd at 1760. See MPEP § 2106.

Information Disclosure Statement

2. The information disclosure statement (IDS) submitted on 28 December 2004 is in compliance with the provisions of 37 CFR 1.97. Accordingly, the examiner is considering the information disclosure statement.

Allowable Subject Matter

3. Claims 1-6 and 22-26 are allowed over the prior art of record.

4. Claim 20 is objected to as being dependent upon a rejected base claim, but would be allowable subject matter if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Conclusion

5. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. References to Kishi, Deutsch, and Saito disclose the control system and method for controlling fuel supply and speed of a multicylinder combustion engine.
